Art Unit: 1762

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims:

Please cancel nonelected claims 10-19.

This application is in condition for allowance except for the presence of claims 10-19 non-elected without traverse. Accordingly, claims 10-19 have been cancelled.

The following is an examiner's statement of reasons for allowance:

It is well known to manufacture a grinding tool by depositing an abrasive grain layer on top of the surface as demonstrated by Matthee et al. (6,042,886) and Hoffmuller et al. (5,660,320). It is also well known to apply abrasive coatings to multiple depressions as indicated by Harrel (6,726,531) and Elder (6,248,407). However, the prior art references fail to teach fixing plural base bodies on a pedestal and then forming abrasive grain layers on the surface of each plural body.

Art Unit: 1762

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
